

Table of Contents

Suggestions for the Day of the Exam	5
Multiple Choice Test Taking Strategies: Strategies for the AEPA.....	6
The Arizona Department of Education Teacher Exams: General Information	8
Constructed-Response Assignment	9
Learner-Centered Proficiencies	10
Cooperative Learning.....	11
Bloom’s Taxonomy of Levels of Thinking	12
Arizona’s Professional Teacher Standards	13
Field 07: Biology	18
Discussion of Competencies	25
Competency 0001 Understand the historical and contemporary contexts of the study of biology.....	25
Key figures and events in the history of biological science.....	25
Competency 0002 Understand the nature of science and scientific inquiry	27
Processes by which science advances.....	27
Role of empirical data.....	28
Competency 0003 Understand principles and procedures of scientific investigations.....	30
Competency 0004 Understand the processes of gathering, organizing, reporting, and analyzing scientific data in the context of biology investigations	31
Ethical issues.....	31
Graphic representations	32
Application of simple descriptive statistics to data.....	34
Competency 0005 Understand how biology interrelates with society, technology, and the other sciences and applies to everyday life.....	37
The impact of biology and technology on one another and on society	37
Competency 0006 Understand cell structure and function and the cell theory	38
Structures, functions, and interrelationships	38
Cell types	39
Comparison of different types of cells.....	41
Cell theory.....	41
Competency 0007 Understand the chemical components of living systems and basic principles of biochemistry	42
Structures, functions, and composition of lipids, carbohydrates, proteins, amino acids, and nucleic acids.....	42
Competency 0008 Analyze physiological processes of cells	45
Competency 0009 Analyze cell growth, division and differentiation	45
Factors affecting cell growth, division, and differentiation.....	46
Competency 0010 Understand principles of taxonomy and classification in biology.....	46
Characteristics of biological classification	46
Competency 0011 Analyze reproduction, development, and life cycles of living organisms.....	47
Characteristics of sexual and asexual reproduction.....	47
Characteristics of developing embryos of plants and plants.....	49
Competency 0012 Analyze the processes used by living organisms to obtain, store, and use energy.....	51
Structures used to store food.....	51

Distribution of food to all parts of an organism.....	52
Competency 0013 Analyze the anatomy and physiology of living organisms.....	55
Adaptations of structures and processes	56
Competency 0014 Understand the structures and functions of the human skeletal, muscular, integumentary, circulatory, and immune system	57
Relationship between the structure of the skin and its functions.....	59
Structures and processes of the circulatory and immune systems	59
Components and functions of blood and lymph	60
Competency 0015 Understand the structures and functions of the human respiratory, excretory, and digestive systems and the principles of human nutrition	62
Basic nutrients worksheet	65
Competency 0016 Understand the structures and functions of the human nervous, endocrine, and reproductive systems, and the processes of embryonic development	66
Competency 0017 Understand the principles of Mendelian and non-Mendelian genetics ...	73
Competency 0018 Understand the synthesis of DNA, RNA, and protein.....	75
Competency 0019 Understand genes, chromosomes, and changes in genetic material	77
Competency 0020 Understand the processes of natural selection and adaptation.....	81
Competency 0021 Understand populations and communities.....	83
Factors that affect population.....	84
The concept of niche.....	85
Competency 0022 Understand types and characteristics of ecosystems and biomes, and factors affecting their change over time.....	86
Types and characteristics of biomes	86
Competency 0023 Analyze the cycling of materials through an ecosystem	87
Competency 0024 Understand the physical and societal effects of human activities on the environment	88
Biology Dictionary.....	92
Practice Questions.....	121
Answers.....	130
Constructed Response Assignment.....	133
