

## Table of Contents

Suggestions for the Day of the Exam .....	5
Multiple Choice Test Taking Strategies .....	6
Strategies for the Oklahoma Examinations for Oklahoma Educators .....	7
Constructed-Response Assignment .....	11
The Oklahoma Examinations for Oklahoma Educators: General Information .....	12
Learner-Centered Proficiencies .....	13
Cooperative Learning.....	14
Bloom's Taxonomy of Levels of Thinking .....	15
Strides Toward Oklahoma's Education Goals .....	16
Relevant Oklahoma Legislation.....	18
Oklahoma Criteria for Effective Teaching and Administrative Performance .....	20
Field 13: Physical Science Test Framework.....	21
Discussion of Competencies .....	26
<b>Competency 0001</b> - Understand the relationships and common themes that connect mathematics, science, and technology .....	26
<b>Competency 0002</b> - Understand the historical and contemporary contexts of the study of science and the applications of science to everyday life .....	27
<b>Competency 0003</b> - Understand the process of scientific inquiry and the role of observation and experimentation in explaining natural phenomena .....	28
<b>Competency 0004</b> - Understand principles of measurement and the process of gathering, organizing, reporting, and interpreting scientific data .....	30
<b>Competency 0005</b> - Understand equipment, materials, and chemicals used in science investigations; and apply procedures for their proper and safe use.....	37
<b>Competency 0006</b> - Understand types and uses of natural resources and the effects of human activities on the environment.....	39
<b>Competency 0007</b> - Understand concepts related to motion in one and two dimensions, and solve problems that require the use of algebra, calculus, and graphing.....	43
<b>Competency 0008</b> - Understand characteristics of forces, and apply the laws of motion.....	45
<b>Competency 0009</b> - Understand the concepts of energy, work, and power, and the principles of conservation of energy and momentum .....	47
<b>Competency 0010</b> - Understand electric charge, electric fields, and electric potential .....	49
<b>Competency 0011</b> - Understand electric current and electric circuits, capacitance, and direct current circuits .....	51
<b>Competency 0012</b> - Understand magnetic fields and electromagnetic induction... ..	56
<b>Competency 0013</b> - Understand simple harmonic motion, waves, and wave motion .....	58
<b>Competency 0014</b> - Understand the characteristics of sound waves and electromagnetic waves (including light and optics).....	61
<b>Competency 0015</b> - Understand various models of atomic structure and the organization of the periodic table.....	68
<b>Competency 0016</b> - Understand the physical and chemical properties of matter and the types of bonds between atoms .....	71
<b>Competency 0017</b> - Understand the relationship between the mole concept, chemical formulas, and chemical equations .....	73
<b>Competency 0018</b> - Understand the principles of thermodynamics .....	75
<b>Competency 0019</b> - Understand the kinetic theory of matter.....	78
<b>Competency 0020</b> - Understand chemical reactions, reaction rates,	

and chemical equilibrium.....	80
<b>Competency 0021 - Understand the properties of solutions and the theories, principles, and applications of acid-base chemistry .....</b>	<b>82</b>
Sample Problems .....	86
Answers to Sample Problems .....	98
Answers to Sample Problems Solutions to Miscellaneous Sample Problems .....	99
Instructions for Sample Constructed-Response Assignment .....	101
Sample Constructed-Response Answer .....	102
The Periodic Table of the Elements .....	105
Characteristics of The Periodic Table of the Elements .....	106
Constants and Formulas .....	108
Safety Symbols Examples .....	109
Glossary and Index .....	110
References .....	125
Discussion Questions.....	128
Vocabulary Cards.....	129
